Expert assessment: standard tasks

Two submitted forms shown separately

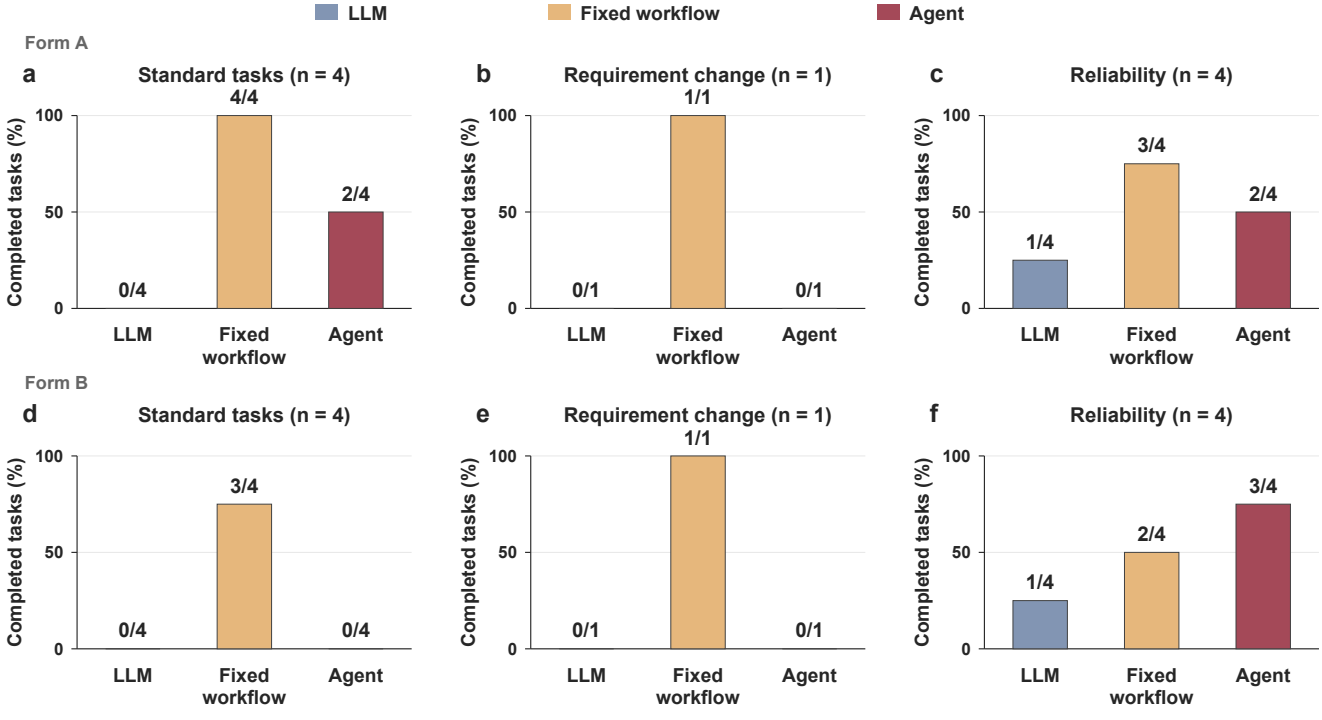

Dots: all task scores; bars: means. n = 4 task episode(s) per group.

Seen development cases. Rating–evidence discrepancies remain unresolved; forms are not pooled.

Task completion in submitted expert forms

Original completion labels; each bar shows completed task episodes / available episodes

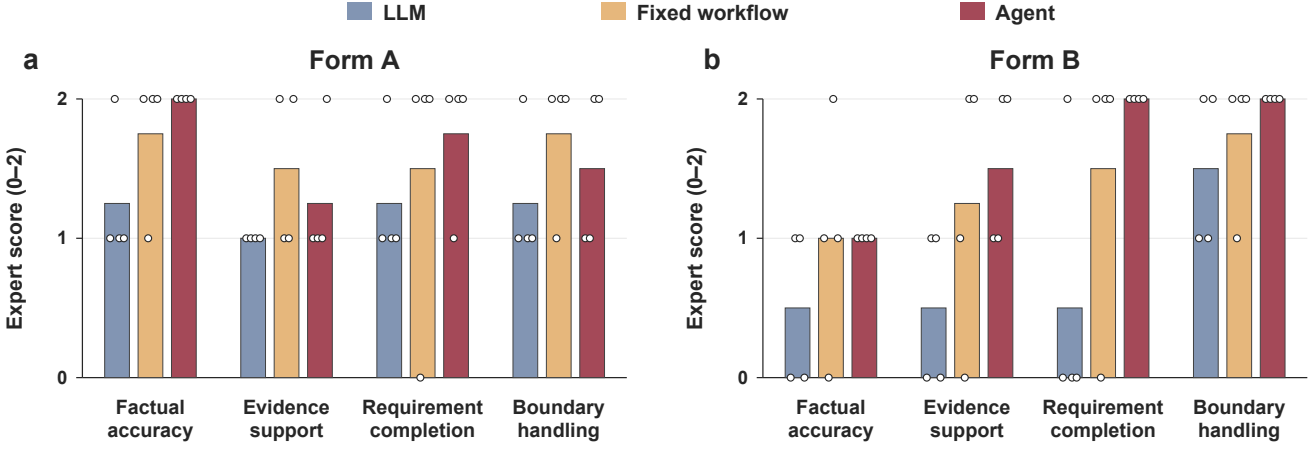

Seen development cases; n = 1 for requirement change. No trial error bars or significance claims.

As submitted; source discrepancies unresolved. These are not adjudicated accuracy or efficacy rates.

Expert assessment: reliability

Two submitted forms shown separately

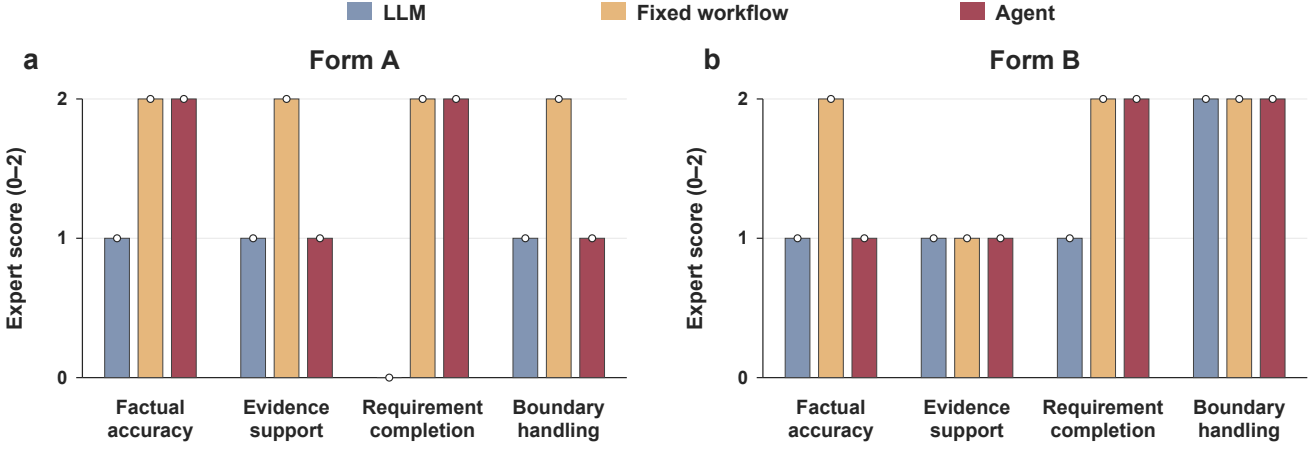

Dots: all task scores; bars: means. n = 4 task episode(s) per group.

Seen development cases. Rating–evidence discrepancies remain unresolved; forms are not pooled.

Expert assessment: requirement change

Two submitted forms shown separately

Dots: all task scores; bars: means. n = 1 task episode(s) per group.

Seen development cases. Rating–evidence discrepancies remain unresolved; forms are not pooled.
